THE 1937 CHRISTMAS BIRD CENSUS IN IOWA

We present herewith the 1937 Christmas bird census in Iowa. If our readers like the census reports in this tabulated form, we shall no doubt make it an annual feature in our magazine. We do not have space to comment on the absence or presence of various species; but a careful study of the table will reveal many interesting points—the scarcity of the Bob-white, the small numbers of Horned Larks (which became very common in January), the appearance of the Magpie, and the records of Bluebirds, Robins and Meadowlarks due to rather mild weather conditions. Meadowlarks apparently have wintered in Iowa in greater numbers than for several years, judging from many reports. The Starling is on all the lists; from the numbers reported it is increasing rapidly.

Some observers included the English Sparrow and others did not. In order to make the table uniform we decided to omit this species, which is highly domesticated and quite unworthy of a place on a list of wild birds. If we were to include the English Sparrow, it seems we should also list the Rock (Domestic) Dove.

We are indebted to 'Bird-Lore' for five of the Iowa lists (pp. 58-59 in the February, 1938, issue). We like 'Bird-Lore's' practice of including photographs of the census-takers. So far, likenesses of Mrs. Toni Wendelburg, Walter Rosen, Fred Pierce, Dr. T. C. Stephens, M. L. Jones and Miss LaMar (all members of our Union) have appeared in 'Bird-Lore'.

Data on place, time, weather and the observers who reported are given below.

BACKBONE STATE PARK (Delaware Co.): Dec. 20; 8:30 a. m. to 3:30 p. m. Cloudy most of the day, with occasional glimpses of the sun, snow in the air at times; about 10 in. snow, partially ice-encrusted, on the ground with fair sized drifts; temp. 19° at start, same at return; 4 miles on foot in the park, and an auto ride from Winthrop to the park. Mr. and Mrs. M. L. Jones, Paul A. Pierce, F. J. Pierce. ('Bird-Lore')

DES MOINES: Dec. 23; 8 a. m. to 5 p. m. Clear in a. m., cloudy in p. m.; temp. 11° at start, 29° at return; 152 miles by auto, 30 on foot; observers in 5 groups. Brenton's Slough, Fischer's Lake, Morningstar Farm, Beaver Creek, Denman Woods, Brown's Woods, Walnut Woods State Park, Waukonsa Woods and Ashworth Park. Geo. Tonkin, J. F. Thompson, Kate LaMar, H. L. Bump, Mrs. Margaret Lutton, Olivia McCabe, Elizabeth Peck, Jessie Morrison, Mrs. Toni Wendelburg, Edna Rounds, Dwight Smith, A. F. Denboer, Mrs. Harold Johnson, Evangeline Grooters, Mrs. H. R. Peasley. ('Bird-Lore')

DUBUQUE: Dec. 26; 9:30 a. m. to 4:30 p. m. Clear, no wind; 4 in. snow; temp. 14° at start, 30° at return; 12 miles by auto, 6 on foot. Eagle Point Park, Linwood Cemetery, high school grounds, and 5 miles north to bottomlands along Mississippi River. Dubuque Bird Club.

FAIRFIELD: Dec. 25; 2 hrs. during middle of day. Cloudy and raw. On the farm of Ross Parrett, 7 miles west of Fairfield; habitat included fairly heavy woods, open fields, creek, etc. Margaret and Kenneth Parrett, John Bliese.

HARPERS FERRY: Dec. 26; 8 a. m. to 4:30 p. m. Clear, no wind; 6 in. snow; temp. -6° at start, 16° at return; 62 miles by auto, 10 on foot. To Dam No. 9, Wexford, Lansing, Waterville and Waukon Junction. A. J. Palas, B. W. Winder. ('Bird-Lore')

OGDEN: Dec. 26; 9 a. m. to 12 m., 1:30 to 5 p. m. Clear, no wind; 1-2 in. snow; temp. 25° at start, 32° at return; 48 miles by auto, 4 on foot. Wooded hillsides and bottom-lands along Des Moines River, open country to Beaver Creek, then to Ledges State Park. W. M. Rosen, Paul Leaverton, Sam Hyde. ('Bird-Lore')

PIERSON: Dec. 26; 8 a. m. to 4:30 p. m. Clear, no wind; ground

direction as much as possible, starting east, then north, then west and home, never more than 5 miles from Tama. Mr. and Mrs. W. G. Mac-Martin, Miss Bay Brice.

The first national bird census sponsored by 'Bird-Lore' was taken December 25, 1900. Since then it has been an annual event and always a popular and worthwhile feature of the magazine. The first Iowa census for 'Bird-Lore' was taken on December 25, 1903, by Rett E. Olmstead at Decorah, with nine species listed. The next Iowa census was taken two years later and from then on Iowa has been regularly represented. Some statistics gleaned from the Pierce bibliography may be of interest. Since the beginning of 'Bird-Lore's' Christmas census there have been 164 Iowa lists. These represent 25 counties of the state and are distributed among the 32 Iowa cities given in the following list. The dates given are the years in which the census was published, though of course the list was made in December of the preceding year.

preceding year. Ames: 1924, '25, '26, '27, '28, '29, '31. Backbone State Park (Delaware Co.): 1924, '33, '34, '35, '36, '37, '38. Bettendorf: 1916, '18, '21, '22, '23, '24, '31. Sioux City: 1910, '11, '12, '13, '14, '15, '16, '17, '18, '19, '20, '21, '23, '24, '26, '29, '30, '31, '32, '34, '36, '37.
South English: 1917.
Spit Lobe: 1021 Spirit Lake: 1931. Tabor: 1926, '27. Wallingford: 1914, '15. Wall Lake: 1909, '10, '11, '12, '13, '14, '15. Waukon: 1907. Webster: 1931. Winthrop: 1921, '22, '23, '26, '27, '28, '29, '30, '31, 32. Without making research into the matter, we believe that Rosen,

Mills, and Pierce have taken Christmas censuses over a longer period than any other observers in Iowa. The census just taken was Pierce's eighteenth consecutive Christmas census, and all have been published in 'Bird-Lore'. As the years pass the census trip becomes almost as important an event as the Christmas holiday itself, and we can look back upon many fine trips with congenial companions, in good weather and bad.
